

Spend! Manager Microapp

Gain real-time spend insights, overcoming price volatility and manual analysis with spend profiling, part and supplier 360s, and what-if modeling to uncover actionable cost-reduction opportunities.

Business Challenges

1. Prices fluctuate, making it difficult to compare costs across products and suppliers.
2. Cost reduction opportunities are difficult to identify due to disconnected data and systems.
3. Manual data analysis is slow and error-prone.
